

SS 583788 FCCC2011-2026 MT45,MT55,MT50E Updated Front Brake Line & Bracket Clamping Enhancements

Applicable Vehicles

FCCC 2011 2026 MT45, MT55, MT50E step vans.

Symptoms

Enhanced clamps & supports for front brake lines to improve conditions such as chafing or severe kinking, if subject to extreme loads due to snow, ice, debris or other factors.

Issue

Severe weather conditions in this area can stress existing clamping & support brackets.

Solution

Install updated front brake line and bracket for clamping enhancements.

Please see the attached Installation Instructions, although the kit A12 33935 000 will NOT be loaded in Paragon nor sold.

Required Parts will be:

A12-33813-000-Brake line

A12 33880 000 LH side bracket

A12-33880-001-RH side bracket
