S6, SQ5, and SQ5 Sportback	2025 – 2026	All	Engine type: DWVA
A6	2026		

REVISION HISTORY		
Revision	Date	Purpose
2	-	Revised header (Added Models, etc.) Revised <i>Condition</i> (Updated model table)
1	06/10/2026	Initial publication

Customer statement:

Low droning noise (humming) can be heard in the engine compartment and in the interior.

Workshop findings:

Noise can be reproduced when maneuvering or at standstill under light load with brake pressed and comes from the area of the belt drive. Example recordings of the noise are attached.

Postpone repair

Technical Background

Under analysis.

Production Solution

Not applicable.

Service

Please postpone repair. A technical measure is currently being analyzed. This analysis is expected to be completed in the third quarter of 2026.

Note: The target date communicated here is based on planning and is not binding. During the validation, technical and regulatory approval of measures, there may be delays or hindrances in providing the measure throughout the entire process. This must be considered accordingly when communicating with customers.

As a part of the process, create a PSS record in the PSS application through the Pending Service Solutions (PSS) link in Audi Now; Service | AU-US > Pending Service Solutions (PSS).

Warranty

There is no reason to replace parts or attempt repairs. Unjustified work/replacement parts will be charged back. Invoicing under warranty is not permitted.

Additional Information

All part and service references provided in this TSB (**2082284**) are subject to change and/or removal. Always check with your Parts Department and/or ETKA for the latest information and parts bulletins. Please check the Repair Manual for fasteners, bolts, nuts, and screws that require replacement during the repair.
