VOLUNTARY SERVICE CAMPAIGN

August 20, 2026

Dear Kia EV6 Vehicle Owner:

Kia America, Inc. is conducting a Voluntary Service Campaign on certain 2024-2026 MY EV6 vehicles to replace the 3-way coolant valve assembly with a new one. In addition, dealers will inspect the 3-way coolant valve harness connector for corrosion and, if necessary, replace the harness connector. Our records indicate that you own or lease one of the potentially affected vehicles.

Why is Kia Conducting This Service Campaign?

The 3-way coolant valve in your vehicle may become damaged and result in a coolant leak. As a result, corrosion may also be present in the 3-way coolant valve harness connector. An inoperative 3-way coolant valve or corrosion within the harness connector may result in reduced Heating, Ventilation, and Air Conditioning (HVAC) performance and/or in the illumination of the "Check electric vehicle system" or "Refill Coolant" warning message in the instrument cluster.

What Will Kia Do?

Kia dealers will replace the 3-way coolant valve assembly with a new one. In addition, dealers will inspect the 3-way coolant valve harness connector for corrosion and, if necessary, replace the harness connector. This campaign will be performed **free of charge at no cost to you.**

What Should You Do?

- Please contact your Kia dealer to schedule a service appointment at your earliest convenience. The time required to perform the campaign can vary depending on the dealer's work schedule, so a service appointment is an important way of minimizing your inconvenience.
