FAQ

Do I need to connect to Wi-Fi to perform an Over the Air (OTA) System Update?

Yes, it is necessary to connect the vehicle to a Wi-Fi network to perform over-the-air updates. To connect to a Wi-Fi network, follow these steps:

1. Go to the **HOME** screen on the audio display screen by pressing the **HOME** button.
2. Select **General Settings**.
3. Select **Connections**.
4. Select **Wi-Fi**.
5. Select **Change Mode**.
6. Select **Network**.

NOTE:

- When the mode is changed from Smartphone Connection to Network, a pop-up appears; select **Confirm**.
Select the desired **Wi-Fi** network.
- To download updates automatically, check Use This Network to automatically download system updates.
Select **Connect**.
- A password may be required.
See the Owner's Manual for additional information.

How do I check for an available OTA System Update?

Follow these steps to check for an available Over the Air (OTA) System Update:

1. Go to the **HOME** screen on the vehicle display audio screen by pressing the **HOME** button.
2. Select the **System Updates** application.
3. Select **Check for Updates**.
4. Follow the on-screen prompts to complete any available updates. See the Owner's Manual for additional information.

Will any functions be unavailable during an OTA System Update?

Some functions will not work during the update process. Perform all updates while parked in a safe location.

Can a dealer perform the OTA System Update for me?

Yes, you can schedule an appointment with your dealer to complete the OTA System Update. The dealer may apply a service charge to perform the update.

How do I check the software version currently installed in my vehicle?

Use the following procedure to confirm the version and update status. Press the **HOME** button.

1. Select **System Updates**.

NOTE: If System Updates are not displayed on the home screen, select **All Apps**.

2. Select **Settings**.
3. Select **Version Status**.

See the Owner's Manual for additional information.

Can updates be performed using a USB device?

No, updates cannot be performed using a USB device.

See the Owner's Manual for additional information.
