Remote Engine Start Will Not Function under the following conditions

Item	Condition
1	Remote Engine Start function is not available on EV and PHEV (inline 4) models. See SA-038/23
2	Vehicle battery voltage low
3	Automatic Transmission shift position except "P"
4	Vehicles equipped with manual transmission
5	Vehicle speed above 3 mi/h (5 km/h)
6	Brake pedal switch malfunction
7	Engine has been running by remote engine start function
8	Engine started by remote engine start more than 2 consecutive times while the vehicle is not driven. The vehicle must be driven 1-mile or 24-hours must pass from the last successful Remote Engine Start for the use count to reset.
9	2021 Mazda3, 2021 CX-30, CX-50, MX-30: Vehicle's electrical control area network (CAN) is in "Sleep Mode" 
10	A registered key is detected in the vehicle
11	Brake pedal switch detects brake application
12	Low fuel warning

CONSUMER NOTICE: The information and instructions in this bulletin are intended for use by skilled technicians. Mazda technicians utilize the proper tools/ equipment and take training to correctly and safely maintain Mazda vehicles. These instructions should not be performed by "do-it-yourselfers." Customers should not assume this bulletin applies to their vehicle or that their vehicle will develop the described concern. 13	Engine starts, then turns OFF due to abnormal high engine rpm detected. (Engine rotation over 3000 rpm continued for more than 0.2[s])
14	No engine rpm detected after sending engine start request. (Engine rotation 0 rpm continued for more than 0.2[s])
15	When the CAN data signal for engine shut off is present (e.g.: door ajar signal)
16	After 10 second maximum cranking time
17	Burglar alarm status is "Alarm" and "Alarm stand by" (CAUTION - DO NOT enable, see Theft-Deterrent System section in SA-012/20)
18	Room fuse blown/missing
19	Connected Services Disabled 
20	Connected Vehicle Maintenance Mode enabled (Restricted Transmitting Mode in MDARS) 
21	Vehicle is parked (stored) for approximately 1 week or longer or in deep sleep mode. Drive the vehicle for a few miles to recover.
22	DTC Stored 
23	Aftermarket Remote Engine Start accessory installed.
24	Mazda Remote Engine Start (BCKA-V7-620) accessory installed (No MyMazda app remote engine start function). Mazda Remote Engine Start (RES) Removal

CONSUMER NOTICE: The information and instructions in this bulletin are intended for use by skilled technicians. Mazda technicians utilize the proper tools/ equipment and take training to correctly and safely maintain Mazda vehicles. These instructions should not be performed by "do-it-yourselfers." Customers should not assume this bulletin applies to their vehicle or that their vehicle will develop the described concern. 	a. Remove the Mazda Remote Engine Start (RES) accessory module. b. Deactivate and activate Advanced Key(s). Refer to MGSS IMMOBILIZER SYSTEM-RELATED PARTS PROGRAMMING [(US)]
25	First remote control attempt fails, second attempt works fine. Go to TSB 16-002/20 .
26	CSP04 Status Open

Remote Engine Start Function Will turn engine OFF under the following conditions

Item	Condition
1	Vehicle door(s) opened
2	Vehicle trunk opened
3	Vehicle hood opened
4	Ignition switch push button "ON" detected
5	Remote engine STOP request
6	Brake pedal switch detects brake application
7	DTC Stored
8	Engine will stop running automatically after 15 minutes for safety, security and emissions.

CONSUMER NOTICE: The information and instructions in this bulletin are intended for use by skilled technicians. Mazda technicians utilize the proper tools/ equipment and take training to correctly and safely maintain Mazda vehicles. These instructions should not be performed by "do-it-yourselfers." Customers should not assume this bulletin applies to their vehicle or that their vehicle will develop the described concern. To determine if the information applies, customers should contact their nearest authorized Mazda dealership. Mazda North American Operations reserves the right to alter the specifications and contents of this bulletin without obligation or advance notice. All rights reserved. No part of this bulletin may be reproduced in any form or by any means, electronic or mechanical--including photocopying and recording and the use of any kind of information storage and retrieval system ---without permission in writing.

REPAIR PROCEDURE

CAUTION: DO NOT swap TCU with another vehicle as the TCU is VIN locked after activation. A TCU swap with another vehicle will disable Connected Services on both vehicles.

Repair Flowchart**PREPARATION:**

1. Confirm that the Telematics Communication Unit (TCU) is at the latest software level. Go to [Telematics Communication Unit \(TCU\) Updates](#)

CONSUMER NOTICE: The information and instructions in this bulletin are intended for use by skilled technicians. Mazda technicians utilize the proper tools/ equipment and take training to correctly and safely maintain Mazda vehicles. These instructions should not be performed by "do-it-yourselfers." Customers should not assume this bulletin applies to their vehicle or that their vehicle will develop the described concern. To determine if the information applies, customers should contact their nearest authorized Mazda dealership. Mazda North American Operations reserves the right to alter the specifications and contents of this bulletin without obligation or advance notice. All rights reserved. No part of this bulletin may be reproduced in any form or by any means, electronic or mechanical---including photocopying and recording and the use of any kind of information storage and retrieval system ---without permission in writing.

2. Go to [eMDCS Vehicle Inquiry](#) and confirm the following campaigns are not shown or closed:

- CSP06
- CSP07
- SSPC7
- DRW41

3. Go to [eMDCS Vehicle Inquiry](#) and confirm CSP04 is not shown.

4. Telematics Communication Unit (TCU) related DTC's must be diagnosed/repared prior to going to next step.

5. If Hotline assistance is needed, please fill out the [Dealer Connected Vehicle Questionnaire](#) before contacting Hotline. The questionnaire collects data needed by Hotline agent.

NOTE: Hotline is only able to support vehicle side issues. If the customer is having difficulty with the MyMazda App paid subscription using the [Mazda Connected Services Owner Portal](#), refer the customer to CEC at (800) 222-5500.

6. In most cases, the customer will not leave their device with you for troubleshooting, therefore a connected vehicle Take-Over is necessary. Use your personal device or dealer supplied device for troubleshooting. Go to [Enrollment / Take-Over](#).

- At customer pick-up, inform customer to re-enroll into Connected Services as a new primary user.

7. Confirm the customer's phone and vehicle have good to strong reception during the concern as shown below.

- If the reception icon shows "X", the TCU Communication Line is Closed. Enrollment is not possible.
 - Open the TCU Communication Line:
 - Dealer - Go to [Opening the TCU Communication Line](#)
 - Customer - Go to [Registering Vehicle Information](#) -> [Registering Connected Service](#).

- If the reception icon shows "\", move the vehicle to an area with a clear view of the sky.

CONSUMER NOTICE: The information and instructions in this bulletin are intended for use by skilled technicians. Mazda technicians utilize the proper tools/ equipment and take training to correctly and safely maintain Mazda vehicles. These instructions should not be performed by "do-it-yourselfers." Customers should not assume this bulletin applies to their vehicle or that their vehicle will develop the described concern. To determine if the information applies, customers should contact their nearest authorized Mazda dealership. Mazda North American Operations reserves the right to alter the specifications and contents of this bulletin without obligation or advance notice. All rights reserved. No part of this bulletin may be reproduced in any form or by any means, electronic or mechanical---including photocopying and recording and the use of any kind of information storage and retrieval system ---without permission in writing.

- If the reception is weak, move the vehicle to a location where the reception is good to strong as shown in the table, then try to get the Authorization Code and/or operate the remote functions before proceeding to the Repair Procedure if there is still an issue.
- If the reception is good to strong, proceed to Connected Vehicle Troubleshooting below.

NOTE: Vehicles stored for long periods may lose GPS clock synchronization. If the vehicle is stored for a long period, test drive the vehicle to give the GPS clock time to synchronize before enrolling or testing connected vehicle functions.
