The most recent update in the attached Dealer Letter will be highlighted with a red box.

Please review this notification with your staff to assure that all relevant personnel have been briefed regarding this subject.

Thank you for your cooperation.

VOLUNTARY EMISSION RECALL 26LF01 (*Remedy Notice*)

Certain 2019–2025 Model Year ES 300h Fuel Cap Negative Pressure Valve & Fuel Filler Dust Intrusion

On August 6, 2026, Lexus filed a Voluntary Emission Recall with U.S EPA (Environmental Protection Agency) and CARB (California Air Resources Board) informing the agencies of our intent to conduct a voluntary Emission Recall on certain 2019–2025 ES 300h.

Model / Years	Production Period	Approximate Total Vehicles
2019–2025 ES 300h	Early November 2017 – Early October 2025	94,100

Condition

Under certain conditions, debris can accumulate inside the fuel cap causing potential fuel vapor leaks that can cause increased evaporative emissions to exceed the regulated limits. This issue will not trigger the M.I.L. (Malfunction Indicator Lamp).

Remedy

For all involved vehicles, Lexus dealers will replace the Fuel Filler Dust Shield FREE OF CHARGE. For certain vehicles, Lexus dealers will also replace Fuel Cap FREE OF CHARGE.

Remedy Phases:

Phase	Model Year	Model	Approx. UIO	Remedy
1	2019	ES300h	10,700	Aug. 6, 2026
2	2020–2021	ES300h	19,700	Sept. 2026
3	2022–2023	ES300h	23,000	Nov. 2026
4	2024–2025	ES300h	40,000	Dec 2026

Service Department

Warranty Reimbursement Procedure

Op Code	Description	Flat Rate Hours
26LF01R1	Replacement Of Fuel Tank Cap & Rubber Shield	1.1
26TF01R2	Replacement of Rubber Shield	1.1

- The flat rate times include 0.1 hours for administrative cost per unit for the dealership.
- Lexus' usual guest care amenities apply to this Safety Recall and are subject to the guidelines published in the *Lexus Warranty Policy and Procedure Manual and the Safety Recall, Special Service Campaign (SSC), and Limited-Service Campaign (LSC) General Services and Claim Filing Policies and Procedures* document on TIS.
 - Alternative Transportation at a maximum of 1 day and a maximum rate of \$55.00 per day while the vehicle is being remedied (use sublet type RT).
 - Pick-up and redelivery of the guest's vehicle (use sublet type DE).
 - Car wash (use sublet type CW).
 - Remote Repairs (use sublet type RR).

Salvage Title Vehicles

Every attempt should be made to complete an open Emission Recall when circumstances permit, unless noted otherwise in the Emission Recall dealer letter.

Remedy Procedures

Refer to TIS for Technical Instructions on repair. Conduct all non-completed Emission Recalls, Safety Recalls and Service Campaigns on the vehicle during the time of appointment.

Emissions Repair Procedures for California Dealers

As this is an emission related recall, California dealers are requested to fill out the Vehicle Emissions Recall – Proof of Correction form and affix an Authorized Modification Label to the vehicle after repairs have been completed.

The vehicle owner may require the Proof of Correction form for vehicle registration renewal. ***It is important to note that the forms are an official state document and blank forms must be secured to prevent misuse.***

Please complete the form and provide it to the owner. The first non-completed VINs will be submitted to the California state DMV by early September 2026. If the vehicle owner's warranty claim will not be processed and paid prior to this date, please be sure to complete a form and provide it to a California owner.

Install the Authorized Modifications Label after the repairs have been completed. Using a permanent marker, fill out the label and affix it to the location under the hood as indicated.

Form booklets and Authorization Labels can be ordered from the MDC (Booklet material number 00410-92007, Label material number 00451-00001-LBL).

Technician Training Requirements

The repair quality of covered vehicles is extremely important to Lexus. All dealership technicians performing this repair are required to successfully complete the most current version of the E-Learning course "Safety Recall and Service Campaign Essentials". To ensure that all vehicles have the repair performed correctly; technicians performing this repair are required to have completed the following courses.

- LIC206B - Electrical Repair 2.

The form is titled "Vehicle Emission Recall – Proof of Correction". It contains fields for License Number, Make, Year Model, Body Type, and Vehicle Identification Number. Below these are fields for Manufacturer, Recall Number, Dealer's Name, Address, City, State and Zip, Date, and Dealership's Authorized Signature. A note states: "The above described vehicle has been repaired, modified and/or equipped with new emission control devices to meet applicable California Emission Control Laws." At the bottom, it says "Return this certificate to DMV only when required – otherwise retain for your records." and includes a small reference number "MDC# 00410-92007".

The label is for "TOYOTA MOTOR CORPORATION AUTHORIZED MODIFICATIONS". It states "THE FOLLOWING MODIFICATIONS HAVE BEEN MADE:" followed by a blank line. Below this, it says "THESE MODIFICATIONS HAVE BEEN APPROVED AS APPROPRIATE BY EPA AND CARB". There are fields for DEALER CODE, DATE, and CHANGE AUTHORITY. Numbered arrows (1-7) point to specific areas on the label and the vehicle's engine compartment. Below the label, there are two tables:

1-4	"Remedy for (Campaign Designation) "
5	Dealer Code

6	Date Completed
7	Campaign Designation

Parts Department

Parts Information

At the time of launch, parts for this campaign are on Manual Allocation Control (MAC) due to potential limited part availability. Please check the CPOR/MAC report on Dealer Daily for the most up-to-date parts ordering information as part controls can be adjusted throughout the life of the campaign.

Dealers can identify which parts ordering method to use by reviewing the parts information section of Dealer Daily and checking for a MAC code on the part numbers below. For MAC code C, order through CPOR. For MAC code D & V, refer to the MAC report for further instructions.

Part Number	Description	MAC
04006-13206	FUEL TANK CAP ASSY SSP KIT	CPOR
04006-15106	SSP FUEL TANK FILLER PIPE SHIELD 1	CPOR

Frequently Asked Questions

Q1: *What is the condition?*

A1: Under certain conditions, debris can accumulate inside the fuel cap causing potential fuel vapor leaks that can cause increased evaporative emissions to exceed the regulated limits.

Q1a: *Are there any symptoms/warnings that this condition exists?*

A1a: No, there are no symptoms/warnings that this condition exists.

Q2: *What is Lexus going to do?*

A2: For all involved vehicles, Lexus dealers will replace the Fuel Filler Dust Shield FREE OF CHARGE. For certain vehicles, Lexus dealers will also replace Fuel Cap FREE OF CHARGE.

Q3: *Which and how many vehicles are covered by this Voluntary Emission Recall?*

A3: There are approximately 94,000 vehicles covered by this Voluntary Emission Recall.

Model / Years	Production Period	Approximate Total Vehicles
2019-2025 ES 300h	Early November 2017 - Early October, 2025	94,100

Q4a: *Are there any other Lexus/Toyota/Scion vehicles covered by this Voluntary Emission Recall in the U.S.?*

A4a: Yes, Certain Camry HV and Avalon HV are covered by this Emission Recall.

Q4: *How does Lexus obtain my mailing information?*

A4: Lexus uses an industry provider who works with each state's Department of Motor Vehicles (DMV) to receive registration or title information, based upon the DMV records. Please make sure your registration or title information is correct.

Q5: *What if I have additional questions or concerns?*

A6: If you have additional questions or concerns, please contact the Lexus Brand Engagement Center at 1-888-271-2622 Monday through Friday, 8:00 am to 8:00 pm, Saturday 9:00 am to 7:00 pm Eastern Time.

Policies And Procedures

Pre-Owned Vehicles in Dealer Inventory

To ensure guest satisfaction, Lexus requests that dealers complete this Emission Recall on any used vehicles currently in dealer inventory that are covered by this Emission Recall prior to guest delivery. However, if the campaign cannot be completed (for example, due to remedy parts availability), delivery of a covered vehicle is acceptable if disclosed to the guest that the vehicle is involved in a Emission Recall.

Lexus expects dealers to visit <https://lexus-recall-disclosure.imagespm.info/> and complete a Customer Contact and Vehicle Disclosure Form. Dealers are expected to provide a copy of the completed form, along with the most current FAQ, to the vehicle buyer. Lexus and the dealer may use this information to contact the guest when the remedy becomes available. Keep the completed form on file at the dealership.

NOTE: Dealers can identify if any of their new and used inventory has any open campaigns in the Vehicle Inventory Summary available in Dealer Daily. The Vehicle Inventory Summary may take up to 4 hours to populate information for newly launched campaigns.

Lexus Certified Used Vehicle

The LCertified policy prohibits the certification of any vehicle with an outstanding Emission Recall, Safety Recall, Special Service Campaign, or Limited Service Campaign. Thus, no affected units are to be designated, sold, or delivered as a LCertified until all Emission Recall, Safety Recalls, Special Service Campaigns, and Limited Service Campaigns have been completed on that vehicle.

LCCS Service Loaners

Lexus requests that dealers remove all LCCS Service Loaner vehicles from service that are covered by an Emission Recall unless the defect has been remedied.

Claim Filing Accuracy and Correction Requests

It is the dealer's responsibility to file claims correctly for this Emission Recall. This claim filing information is used by Lexus for various government reporting activities; therefore, claim filing accuracy is crucial. If it has been identified that a claim has been filed using an incorrect Op Code or a claim has been filed for an incorrect VIN, refer to Warranty Procedure Bulletin [PRO17-03](#) to correct the claim.

Parts Recovery Procedures

All parts replaced as part of this Emission Recall must be turned over to the parts department until appropriate disposition is determined. The parts department must retain these parts until notification via the Parts Recovery System (PRS) is received indicating whether to ship or scrap the parts. These parts are utilized by various departments for defect analysis, quality control analysis, product evaluation, as well as other purposes.

To help minimize dealer storage challenges, Lexus recommends that dealers:

- File the campaign claim accurately and promptly. The time a dealer is required to hold parts is based on when the campaign claim is paid by Lexus.
- Monitor the Warranty Parts Recovery Notifications and Part Scrap Report regularly.

Refer to Warranty Policies [9.3 and 9.6](#) for additional details.

Guest Reimbursement

Reimbursement consideration instructions will be included in the owner letter.
