Subject	URGENT: Destroy Original USB for Wireless CarPlay / Android Auto						

On August 21st, 2026, American Honda issued a Product Update for certain 2018-2022 Accord and Accord Hybrid models that received the accessory Wireless CarPlay and Android Auto upgrade. Refer to [Service Bulletin 26-068](#) for additional information regarding the Product Update.

The Black USB Drives that were originally used in the upgrade contain corrupt software and must be destroyed.

All dealers must account for the Black USB Drive and destroy it immediately. No evidence of the destruction is required. If the USB cannot be located, no further action is needed.

Contains software: 18AA-5033-001

Parts and Service Managers should share this iN message with their personnel in the event there are additional USB drives that were not accounted for.

The replacement is the Purple USB Drive that is included with the USB Drive Set, 07AAU-TVAA1Z0. This USB set was shipped to all dealers to support the Product Update.
