

Subject: ORDERING REQUIREMENT FOR AT COMPONENTS FOR H3T (INLINE 6)	Service Alert No.: SA-061/26
	Last Issued : 09/16/2026

BULLETIN NOTES

APPLICABLE MODEL(S)VINS

2024-2026 CX-90 with H3T (inline 6)
2025-2026 CX-70 with H3T (inline 6)

DESCRIPTION

Use this guide before ordering or replacing an AT component on applicable H3T vehicles.

QUICK CHECKLIST BEFORE ORDERING

- Confirm the vehicle is a CX-90 (KK) or CX-70 (KJ) with H3T and is within the applicable market coverage.
- In GEPC, identify the AT component part number for the vehicle.
- Use the GEPC lookup tables below to determine whether the vehicle requires Table A or Table B parts.
- Order the complete set of parts listed in the applicable table. DO NOT order the AT component by itself.
- Check whether water hose removal is required for that GEPC part number.
- Follow the applicable WSM repair procedure for AT component removal/installation, water hose removal, and oil hose/oil pipe installation in MGSS.

IMPORTANT: If only the AT component is ordered, required replacement parts will be missing, and the repair cannot be completed.

CONSUMER NOTICE: The information and instructions in this bulletin are intended for use by skilled technicians. Mazda technicians utilize the proper tools/ equipment and take training to correctly and safely maintain Mazda vehicles. These instructions should not be performed by "do-it-yourselfers." Customers should not assume this bulletin applies to their vehicle or that their vehicle will develop the described concern. To determine if the information applies, customers should contact their nearest authorized Mazda dealership. No part of this bulletin may be reproduced in any form or by any means, electronic or mechanical---including photocopying and recording and the use of any kind of information storage and retrieval system ---without permission in writing.

DESIGN CHANGE DETAILS

1. Water hose discontinuation

Early production vehicles were equipped with a water hose that was later discontinued. When replacing the AT component on vehicles that require water hose removal, remove the water hose. Current service AT components do not include a provision for water hose installation, and the hose does not need to be reinstalled.

**Prior to water hose discontinuation
(water hose shown in purple)**

**After water hose discontinuation
(harness bracket shown in purple)**

2. Inverter is not included with the service AT component

The inverter is reused and is not included with service AT components. Before ordering, check the AT component part number in GEPC and use Table A or Table B to order all required parts together.

IMPORTANT: If DTCs for inverter are present or WSM indicates inverter replacement is needed, order inverter separately.

AT component with inverter

Service AT component without inverter

3. Oil hose and oil pipe design change

The oil hose and oil pipe were redesigned and are not interchangeable with previous-design parts. When replacing the AT component, the oil hose and oil pipe must be replaced together with the AT component.

CONSUMER NOTICE: The information and instructions in this bulletin are intended for use by skilled technicians. Mazda technicians utilize the proper tools/ equipment and take training to correctly and safely maintain Mazda vehicles. These instructions should not be performed by "do-it-yourselfers." Customers should not assume this bulletin applies to their vehicle or that their vehicle will develop the described concern. To determine if the information applies, customers should contact their nearest authorized Mazda dealership. GEPC Catalog AULW02 & AULS02: '26MY CX-90 H3T & '26MY CX-70 H3T

Parts Number On GEPC	List of Parts to be Ordered	Water Hose Removal	Spec./Notes
M3YL-03-000A	Table A	NOT Required	No Water Hose was installed at Mass Production
M3YM-03-000A	Table B		

PARTS TO ORDER

PARTS DEPARTMENT ACTION: Order every line in the applicable table. The AT components, oil hose, oil pipe, and inverter installation gaskets are all required for the repair.

NOTE:

- DO NOT order the AT component alone.
- Reuse the inverter but order the required installation gaskets.
- Order the oil hose and oil pipe with the AT component because previous-design parts are not compatible.
- Remove the water hose only when the GEPC lookup table indicates removal is required.

Table A

Parts Number To Ordered	Description	Qty.	Notes
M3X3-03-000	AUTOMATIC T/MISSION CPT.	1	For H3T Regular Gasoline
RZM5-19-9G1	HOSE, OIL	1	Due to non-interchangeability
RZM5-19-931	PIPE, OIL	1	Due to non-interchangeability
MR01-30-3A1	GASKET	1	[R], For inverter installation
MR01-30-3A2	GASKET	1	[R], For inverter installation
MR01-30-3A3	GASKET	1	[R], For inverter installation
MR01-30-3A4	GASKET	1	[R], For inverter installation
