Re: Warranty Extension: 2015-2020 TLX Fuel Fill Pipe

Today, September 25, 2026, Acura is announcing a **warranty extension** for certain 2015-2020 TLX vehicles. The fuel fill pipe assembly may not have been manufactured to specification. As a result, small contamination particles inside the fuel fill neck may prevent the primary shut-off valve flap seal from sealing, resulting in fuel smell from the fuel fill neck area and may cause DTC P0455 or P0456 (EVAP system leak detected) to be set.

Acura is extending the warranty coverage for the fuel fill pipe assembly related to this condition to 10 years from the original date of purchase or 150,000 miles, whichever occurs first.

To further support client satisfaction and confidence, Acura will also provide a 6-month grace period for affected vehicles that are no longer eligible under the warranty extension, regardless of vehicle age or mileage.

REPAIR

Replace the fuel fill pipe assembly and retainer.

PARTS

The fuel fill pipe will be controlled via the WARP program and the retainer will be available via the normal ordering process.

TOOLS

There are no special tools needed for this campaign.

SERVICE BULLETIN

Service Bulletins 26-023, *Warranty Extension: 2015–20 TLX Fuel Smell from Fuel Fill Pipe* and 26-025, *Warranty Extension: 2015-17 TLX Fuel Smell from Fuel Fill Pipe (6 month) – Expires May 31, 2027* have posted to the Service Information System (SIS) as of September 25, 2026. They include parts, repair, and warranty information related to this campaign.

CLIENT NOTIFICATION

Acura expects to begin client notification in early November 2026.

As always, perform an iN VIN status inquiry for all vehicles passing through your dealership to determine eligibility for any open campaigns.
